## MONTGOMERY COUNTY DELEGATION FOR KYLE

"BOSS" LOWES

**Boldest Political Theft Ever Known  
in Greene County-Party Demand-  
ed Snodgrass but the "Gang"  
Barred the way.**

Since the Republican Central Com-  
mittee has refused to hold the prim-  
ary election under the law, where  
the election would be governed and  
controlled by provisions enacted to  
secure a fair vote, and a fair count,  
and have neglected and refused to  
pass any rules tending to prevent  
fraud and insure such result, it is  
evident to me that I am counted out  
by such suitable methods as the  
modern ward politician, from long  
experience and skill, finds effective  
and available.

This situation, which is bad  
enough, was not alone sufficient to  
deter me from being a candidate but  
when the machine, as if not satisfied  
with this advantage, and the pres-  
ence of an appointment of their candi-  
date by the Governor, went farther  
and procured the Judicial Committee  
to order delegates elected, and  
authorized the Executive Commit-  
tee, of which their candidate is chair-  
man, to gerrymander the county for  
that purpose, thus providing for a  
divided delegation and furnish an  
excuse for Dr. Lowes to come to their  
relief, there was reason for believing  
that all this meant something.

It looked as if by concerted move-  
ment, the "Xenia" gang, and the  
Dayton "gang," with the Judicial  
Committee, which is but a creature  
of the "gangs," had figured a "sure  
thing." The old way which has not  
been departed from for thirty years,  
in the selection of a Judge from this  
county, would give the successful  
candidate all the delegates. Dr.  
Lowes did not want to assume all  
the odium of this scheme to defeat  
the will of the Greene county people,  
so to divide it among the conspira-  
tors, it was arranged to secure a di-  
vided delegation. He could then  
"fool some of the people some of the  
time" by claiming that since Greene  
county was divided in its candidate,  
it was his province to make a choice  
for them.

This situation confronting me, I  
concluded it was to my friends to  
make all the investigation I could on  
the subject.

For this purpose, I went to Dayton  
and made some investigation, but  
soon found that no one knew what  
"Dook" was going to do. I did not  
expect him to give any information  
on which I could rely, but thought  
after a talk with him I might be able  
to make up my mind. I saw him,  
and in substance he said this: "I  
want to be frank with you. I am  
for Judge Kyle, and shall see that  
the entire delegation of Montgom-  
ery county votes for him, if neces-  
sary. In view of the trouble that  
Gov. Herrick is having a re-nomi-  
nation, on account of the Bran-  
nock Law, I feel that to nominate  
any one else would be a slap in his  
face, to which I do not propose to  
be a party, and I shall be for Judge  
Kyle, irrespective of what the  
Greene county delegates may de-  
sire." The Dr. treated me very  
nicely, and seemed to be, as he stated

### NOTES FOR THE FARMER.

The man who never makes repairs  
on his buildings and fences, is likely  
to have the same experience the dea-  
con had with his "one-hoss shay";  
the outfit will go "all at once and  
nothing first."

Farmers ought to be the most  
grateful class of people in all the  
world. Every drop of dew, every  
ray of sunshine, brings a blessing.  
What we need most of all are hearts  
to appreciate our mercies.

Every horse has its notions, same  
as man. You can not break a horse  
of his peevishness. Give it up and  
turn them to advantage. Learn what  
all of these notions are, and treat the  
horse as you would like to be treated  
under similar circumstances.

The Chinese believe that ginseng  
contains properties which prevent  
disease and lengthen life. Sad to re-  
late however, the ginseng plant does  
not seem to be able to take its own  
medicine. Cultivated plants will  
rot and blight just the same as or-  
dinary vegetation.

A horse, in getting up, puts his  
fore feet up in front of him, raises on  
them and plunges forward; a cow  
raises on her hind feet, doubles the  
front feet under, raises on her knees,  
plunges backward. In helping a  
horse up pull his front feet out and  
help him to plunge forward.

In the address of Master Morris of  
the N. Y. State Grand occurs this  
excerpt: "The cultivators of the soil  
are the most valuable citizens. They  
are the most vigorous, the most in-  
dependent, the most virtuous and are  
tied to their country and its lib-  
erty by the most lasting bonds."

Sometimes farmers get it into their  
heads that they can carry on three  
or four kinds of business at the same  
time, on the same farm. Takes a  
pretty strong man to do this, and  
thousands have found this out only  
when their pocketbooks were empty  
and their health and strength gone.

Every farmer should be all the times  
traveling about the county. They charge  
twice as much as their stores are  
worth. Not one farmer out of a dozen  
but regrets his purchase, if he  
should be wheedled into buying one  
of the stove. The best way is to  
buy of men at home who are respon-  
sible.

### A PLEASANT CALL.

The Herald received a pleasant  
call last Saturday from Mr. J. Fred  
Green of Springfield, who came  
down to attend the Collins sale of  
fine horses. Mr. Green is now con-  
nected with the Bushnell syndicate  
and informs us that he has just closed  
a contract to build two roads in the  
northern part of the state. Mr.  
Green when asked as to what he  
knew about a road that would reach  
Cedarville stated that he knew of  
nothing definite and that there was  
little probability that a road would  
be built directly between here and  
Springfield. His mission here was  
entirely to invest in fine horses and  
before he returned purchased Phron-  
ox Bells for \$200. Mr. Green has  
engaged trainer Worthington for  
the year and will take out a string  
of eight horses. Little B, 2.15 owned  
by Mr. O. T. Wolford has been hand-  
led by Worthington for a couple of  
years. Mr. Green says he offered  
Mr. Wolford \$1,200 for the mare but  
his offer was turned down. He con-  
siders her one of the brightest pros-  
pects for the coming season and  
that she will be marked away down.

itor in Columbus, Monday.

The readers of this paper will be pleased  
to learn that there is at least one dreaded  
disease that science has been able to cure in  
all its stages and that is Catarrh. Hall's  
Catarrh Cure is the only positive cure now  
known to the medical fraternity. Catarrh  
being a constitutional disease, requires a  
constitutional treatment. Hall's Catarrh  
Cure is taken internally, acting directly up-  
on the blood and mucous surfaces of system  
thereby destroying the foundation of the  
disease, and giving the patient strength by  
building up the constitution and assisting  
nature in doing its work. The proprietors  
have so much faith in its curative powers,  
that they offer one Hundred Dollars for any  
case that it fails to cure. Send for list of  
testimonials.

Every housekeeper should know that if  
they will buy Defiance Cold Water Starch  
for laundry use they will save not only  
time, because it never sticks to the iron, but  
because each package contains 10 one-pound  
pounds—while all other Cold Water  
Starches are put up in 5 pound packages,  
and the price is the same, 10 cents. Then  
again because Defiance Starch is free from  
injurious chemicals. If your grocer tries to  
sell you a 12 oz. package it is because he has  
a stock on hand which he wishes to dispose  
of before he puts in Defiance. He knows  
that Defiance Starch has printed on every  
package in large letters and figures "16 ozs."  
Demand Defiance and save much time and  
money and the annoyance of the iron sticking.  
Defiance never sticks.

### PROF. HARPER WRITES LETTER

I have thought ever since coming  
up here that there were many things  
that might be of interest to the  
readers of the Herald, and have had  
it in mind for some time to write a  
short article; but have put it off from  
time to time, and now it is over two  
years since I left Cedarville for this  
northern climate and still the article  
not written.

The Herald comes to us every week  
with many interesting bits of news,  
and I feel that we owe it something  
in return. We are always glad to  
know that the College boys won a  
basket ball game from Clifton, and  
that Harry Little had a "son" stroke,  
especially as it didn't prove fatal.

Superior, as the most of you know  
is situated in the north western cor-  
ner of Wisconsin on the shores of  
Lake Superior and just across the  
St. Louis river from Duluth. These  
two cities are at the head of lake  
navigation and consequently have  
large elevators for the loading of the  
grain on the boats, large docks where  
the iron ore of this region is loaded  
on the boats and large coal docks  
where the coal from Penn. and Ohio  
is unloaded to be shipped to points  
farther west. Consequently there is  
a great deal of business done here,  
but not so much as was anticipated  
for the city a few years ago.

The city was started in 1858 when  
the first settlers built their log cabins  
within the present city limits. From  
then until 1890 the city had a slow  
growth. About that year a boom  
started, a great many eastern  
capitalists came out here and invest-  
ed their money, all the surrounding  
territory was taken into the city limits  
and everybody expected the city to  
rival Chicago in a very short time.  
This lasted for two or three years  
and suddenly the bottom dropped  
out of "it" thing. As many of the  
capitalists had money left over from  
invested and couldn't get away  
stayed and tried to make the best of  
it, and many of them are still waiting  
for another boom, when they hope to  
get back what they lost. The city  
now is in a better condition probably  
than it has ever been and is having  
a slow but steady growth.

The country around Superior is  
very poorly settled. The lumber has  
been taken off the land but very little  
of it has ever been cleared for farm-  
ing, and I believe that this land  
offers an excellent opportunity to the  
young men who are willing to work  
and to endure the privation of front-  
ier life. Out from the city twenty  
miles one can find log cabins and  
people clearing the land, living pretty  
much as they lived in Ohio a century  
ago. The land can be bought for  
from five to ten dollars an acre, and  
when cleared will make excellent  
farm land for potatoes and the more  
hardy grain berries and many  
kinds of fruit grow in abundance  
here.

The climate of course is colder than  
it is in Ohio. As a general thing  
snow begins to fall about Thun-  
sgiving and lasts until the first of  
April. This year is an exception as  
the snow is nearly all gone now.  
Last winter we had it as cold as forty  
degrees below zero but this winter  
has been milder, thirty degrees below  
being the coldest. But in spite of the  
cold we enjoy the winters here with-  
out rain and mud.

Now if anybody around Cedarville  
would like to take advantage of the  
cheap farm lands up here I will be  
glad to give them any other infor-  
mation that is in my power. The land  
is being settled mostly by Swedes and  
Norwegians.

The schools here are in excellent  
condition, easily on a par with those  
in older states. Our high school has  
a first class basketball team and we  
heretofore challenge the College boys to  
come here and play us provided they  
will pay their own expenses.

### CAPTURED NEAR LONDON.

A shooting scraps took place near  
the railroad last Saturday night  
while a free for all fight was being  
engaged in by Joe and James Baker,  
Earl Robinson and William Milton,  
all colored. The three former took  
the freight train out of town and  
the authorities telephoned South  
Charleston and London to arrest the  
 trio and hold until an officer could  
arrive. The boys were not located  
until London was reached and when  
approached by the officers started  
out across the fields in a dead run.  
The officers and sheriff gave a hot  
pursuit and landed the two Bakers  
about four miles from London. Rob-  
inson was fast on his feet and ar-  
rived home before an officer could go  
after the Baker brothers.

Milton and John Price later in the  
night had some misunderstanding  
about some money matters and Of-  
ficer Kennon placed them under ar-  
rest.

Monday morning Mayor McFar-  
land assessed Price \$5 and costs,  
Milton, \$10 and costs, Joe Baker,  
\$50, costs and 90 days, and James  
Baker, \$25, costs and 90 days. Rob-  
inson was not placed under arrest.  
The Baker brothers were taken to  
the workhouse to serve out their  
time.

### BROUGHT SUIT.

John Stoner has brought suit in  
Common Pleas Court against Thom-  
as A. Arthur for damages and to re-  
cover \$400 paid to the defendant.

Stoner says that on October 17,  
1904, he entered into a written con-  
tract with Arthur for the purchase of  
140 acres of land in Cedarville town-  
ship, in consideration of the sum of  
\$85 an acre. The sum of \$400 was  
paid at the time of the execution of  
the contract, \$5,000 was to be paid  
January 1, 1905, and the residue at  
the delivery of the deed. Mr. Stoner  
says the defendant has failed to car-  
ry out his contract for the delivery  
of the land, but retained the \$400.  
The plaintiff says that the premises  
are worth \$10 more an acre than the  
contract price by reason of which  
failure to comply with the contract  
has damaged Stoner to the amount  
of \$1,888.

He further says that he had \$11,000  
in readiness to pay to the defendant  
and that he was deprived of \$110 in  
interest on that sum. In addition he  
had gone to expense to arrange for  
moving to the property and equip-  
ping same, including \$75 in attorney  
fees and seeks judgment altogether  
for \$2,468.

It seems that there is a mortgage  
lien of \$2,000 on the premises, which  
was unknown to the plaintiff, and  
which is still unencumbered, by reason  
of which the defendant cannot con-  
vey the property free of incum-  
brance.—Press Republic.

### NOTICE.

A meeting of the members of the  
Cedarville Protective Association will  
be held in the Mayor's Office in  
Cedarville Tuesday evening March  
21st, 1905, at 7 o'clock for the purpose  
of electing officers for the ensuing  
year. Any members that are in  
arrears with their dues should pay  
same before above date.

### ENTRIES ARE ALL IN.

The candidates that will enter the  
county primary in April all put up  
their money Thursday, the latest  
time allowed to enter. For clerk of  
Court there are three names, J. E.  
Lewis, J. F. Haverstick, and S. O.  
Hale. For infirmity director J. B.  
Fleming will be opposed by Lester  
Arnold.

Marcellus Shoup for Probate Judge;  
O. B. Kaufman for county treas-  
urer; George Little for representa-  
tive and C. S. Johnson for coroner  
will have no opposition.

The latest political trick at the  
hands of "Boss" Schmidt in the  
fight for common pleas judge has  
caused public indignation and the  
real contest of the primary will be  
to select anti-machine men for con-  
stitutional committee. Opposition has  
been put up against each of the  
Schmidt stool pigeons in the county.

The delegate for this township to  
the Judicial convention will be T.  
B. Andrew with J. W. Pollock as  
alternate.

A. O. Bridgman was in Columbus  
on business, Monday.

## SNAP SHOT SCENE IN THE ARCTICS.

**Former Cedarvillian Wins Just Praise  
Through Her Camera—Mrs.  
J. Robt Harper of  
Superior, Wis.**

The above illustration is furnished  
the Herald by "The Superior Tele-  
gram" through the kindness of Prof.  
J. R. Harper, who has a position in  
the public schools in that city. Prof.  
Harper states in a letter to the Ed-  
itor that the article credits him with  
having taken the photograph when  
it should have been Mrs. Harper.  
We quote the article as it appears  
in the "Telegram."

"The accompanying cut from a photo  
taken by a Superior pedagogue, is  
from a view such as is seldom pre-  
sented to the amateur photographer.  
It is interesting not only on account  
of the subject but on account of the  
circumstances under which the artist  
took the picture. Icebergs and the  
"midnight sun" are usually classed  
together by the geographer but al-  
though the picture from which this  
cut was made was taken at an hour  
well along toward midnight it was  
not sunlight that made the impres-  
sion on the sensitive plate of the  
cameras. The "snap shot" was the  
result of an exposure of half an hour  
and it was in the clear moonlight.

To the student of the land of the  
Esquimo the picture will have quite a  
familiar appearance. His imagination  
can easily picture the Lieutenant  
Peary expedition to the north pole,  
can see the great icebergs looming  
up, perhaps a hundred feet high,  
far above the masts of the ship, and  
can almost see the anxious faces of  
the brave crew with the good ship's  
forlorn exterior.

But that would be only imagin-

tion, for the natty little craft in the  
picture is not a "really truly" ship  
at all. And what appears to be open  
sea in the picture is not "really truly"  
water. It is ice and the ship is ice  
that, for it is the work of an engineer  
who operated the photograph.

The view here presented is to be  
seen any day of evening and espe-  
cially the latter while the moon is now  
in its glory just across from the East  
End on the lake shore. Before the  
lake froze early this month the ac-  
tion of the water piled up an immense  
ice field along the point, the outer  
edge being the highest point and al-  
ways increasing in height. The ice  
field thus formed extends a few hun-  
dred feet from the shore where the  
vast hummocks have a rugged and  
picturesque appearance some peaks  
rising to a height of from 25 to 30  
feet sheer from the water level out-  
side. As the lake is now frozen far  
out, people can venture out beyond  
the icebergs and get a fine view of  
the wall of ice which has only been  
increased in size and ruggedness by  
the onslaughts of the angry waters  
of Lake Superior.

The photo from which the cut was  
made was taken from a point some  
distance out on the ice. Prof. J. R.  
Harper of the Nelson Dewey high  
school was the principal artist en-  
gineering the feat, the camera being set  
out for a moonlight session with the  
icebergs. After a half hour the but-  
ton was pressed with the foregoing  
result—all but the ship."

### BASKET BALL.

The fastest game of basket ball  
ever played in Cedarville was played  
between the College team and the Y.  
M. C. A. of Xenia, a team that has  
been battling for state championship.  
The first half proved the most inter-  
esting, while the second half the  
visitors fairly walked away with the  
local boys. The score was 41 to 21 in  
favor of the visitors. The second  
game between Clifton and Cedar-  
ville, second teams, was won by the  
home boys, score 31 to 18.

Thursday evening there were three  
games, the last of the season on the  
home floor. The first was between  
Xenia Business College of Spring-  
field and the College boys and re-  
sulted in a score of 41 to 14 in favor  
of the latter. The second game be-  
tween boys from the intermediate  
grades of the public schools of James-  
town and this place was won by the  
home boys by a score of 19 to 2. The  
third game between the Jamestown  
Ramblers and the High School was  
won by the former. Score 18 to 12.

The College team expects to go to  
Xenia Saturday night to meet the  
Y. M. C. A. A party of ten will be  
able to go down on the evening train  
and return at 10:30.

**CONDEMNS ITSELF.**

There are some persons in the world who are such consummate asses that in trying to defend themselves they furnish the evidence for their own conviction. The Cedarville Record, a sheet created and existing for the sole purpose of defending crime in politics, attempted, last week, to deny its mission and challenge the statement of the LOCAL.

We said it was the only newspaper in the county that had the temerity to defend the political gang controlling Republican politics in the county, and it says it made no defense, and in the next paragraph says "the Record is a Republican newspaper and it is not only its duty but its pleasure to defend the Republican party and its organization whenever and wherever either of them is assailed." That admission proves our statement. The Record defends the organization whether it is right or wrong, and it is the only paper in the county that does.

The Record was established about two years ago by certain parties in Cedarville who had been exposed by the Herald of that place and their crooked work shown up. We are entirely familiar with the political history of the Cedarville gang that supports and is supported by the Record. We know the crimes they have committed and it is the mission of the Record to defend them, as it is doing.

The Herald has been fearless in exposing the methods of the villains and called down upon its self their condemnation. And now the fool editor of the Record is hunting for more trouble. He attempts to charge the editor of the LOCAL with saying one thing and doing another, and this is the way he does it.

He quotes a portion of the article in the LOCAL two weeks ago under the caption "A Square Deal" but goes no further than where we say "we believed from the evidence we had, their methods were questionable and their business dishonest and they could not buy the influence of the LOCAL." Then he says, "with such a firm, positive declaration as the above, one would naturally think that the writer would suffer martyrdom rather than allow his column to be used by such a concern. Yet the entire 4th page of the LOCAL is occupied by an advertisement of this same concern." He did not quote where we said we investigated the firm and found nothing questionable. Had he done this our position would have been shown to be entirely consistent. Any man who will use such a cheap, sly trick to try to discredit another is not only a knave but a fool. A knave because he knowingly and purposely deceives his readers and says that, by implication, which he knows to be utterly false. He is a self-confessed liar and traitor of character. One who would do such

**Impoverished Soil**

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as

a low, mean thing, would steal his mother's marriage certificate and wear his sister a bastard, simply to grieve and give them pain.

A man who edits a paper should, first of all, be honest with himself and with his readers, but this sapsucker who edits the Record thought he was doing something very cute when he quoted us partially and tried to lead his few readers to believe that we condemn and approve at the same time. A fool because he has not enough brains to know his partial quotation and inference could and would be readily disproved and himself shown up as a villain. Of course, he is young at the business and green; but that is no justification for willfully lying to those few who read the sheet. Age will not help the young man, for there is nothing upon which age can build. He has not the first requisite for success, that of a gentleman, but starts his career with false statements. He has not even the ability to lie cleverly, effectively, covertly, and give himself a chance to hedge. Like an idiot he puts it in cold type where he can't get away from it. There is a certain amount of admiration, if not respect, for the fellow who tells a lie with such adroitness that he can escape its consequences or modify its harshness; but a liar like the Record man isn't worth the bestowal of contempt. Again, to show his assiduity, he sent several copies of the Record to citizens of Osborn; for the purpose, no doubt, of showing the people what a bad man the editor of the LOCAL is. The people who got the Record take the LOCAL and read the article in full from which the extract was taken. They know the Editor of the Record is a lying cheap-skate and for his pains he has earned their contempt.

We should not, probably, give so much space to the Record man, for he is unworthy notice and only gets it in this way, but we charge and are ready to prove that he is a liar, and has in the beginning of his career committed the greatest crime known to journalism. If he would deceive his readers in one thing, why not in another? If he would lie in defense of the gang, why not when making any other statement about them. The Cedarville Record is a dirty, lying sheet, discredited and disgraced. We have the evidence to prove this statement.

Its circulation consists of free copies and exchanges, its patronage political corruptionists and law breakers. From its birth it has always been on the wrong side of every moral question, defends the ballot box stuffers at home and abroad and takes "pleasure" in defending the Republican organization, which mean the defense of those few who are known to be utterly bad without one principle of honor. We repeat that the dirty little sheet is the only paper in Greene county that attempts in any manner a defense of the Xenia gang that robs the people. Its Editor is the only man so low in the scale of moral and intellectual attributes that would sell himself so cheap and do such filthy work.

The foregoing is rather brutal, we know, but it is the only kind of language the Record Editor can understand, not being a gentleman, he could not appreciate sentiments couched in gentler words.—Osborn Local.

**A FOOLISH PLAN**

It is a joy to eat—I welcome my dinner hour! Because I eat indigestion with Aqueous Flower! Constipation is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, emaciation, uric acid, neuralgia in various parts of the system, catarrhal inflammation of the intestinal canal, and numerous other ailments that rob life of its pleasure if they do not finally rob you of life itself. "I'm bound in the bowels," is a common expression of people who look miserable and are miserable—yet who persist in "holding nature take its course." What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills. August Flower gives new life to the liver and insures healthy stools. QTWO sizes, 50c and 75c. All druggists. Isaac Wisterman, Cedarville, O.

## In Many Newest Cloths and Colors.

This is an exceptional opportunity for the women of Cedarville and vicinity and one you can hardly afford to miss. Wooltex Styles are the standard styles for the United States and Wooltex fabric and tailoring may well be the standard for the world. Until these skirts are gone, you can get the newest Wooltex Skirts, latest styles at considerably less than their regular usual prices. Never before have we had so large and complete assortment of Wooltex garments. It is the best collection ever seen in Ohio.

### Wooltex Means Three Things.

1. THE FAULTLESS FASHION OF THE PRESENT HOUR in ladies', misses' and children's garments.
  2. PURE ALL-WOOL FABRICS in great variety, with perfect fit and finish.
  3. AN ABSOLUTE MONEY BACK GUARANTEE that each particular garment through and through in every line, fabric, seam, and thread is right.
- Paris is the great style-center of the world, but it is her place to inspire rather than to direct. Wooltex designers seize upon the good ideas that Paris has to give and around these good ideas they build a garment that is practical yet full of style and is adapted to the special requirements and tastes of American women.

The splendid Wooltex tailoring and fit are produced by men tailors of trained and experienced skill. So long as the fabric remains just so long does the garment keep its shape. The exquisite Wooltex finish is shown in every slightest detail, and Wooltex variety is as limitless as fashion itself.

### THE WOOLTEX GUARANTEE

Any defect in fabric, fit or finish will be made good, to your entire satisfaction. Any loss that this may cause us is made good to us by the manufacturer.—So you have a double guarantee. This sale is held especially to introduce Wooltex garments. You'll want more after you have once worn them.

## New Spring Shirt Waists.

#### COLLEGE ENDOWMENT.

The committee to canvass for the \$5,000 to secure the \$5,000 offered for Cedarville College by Mr. and Mrs. Geo. W. Harper began work this week and will continue until this community has been thoroughly canvassed. Already nearly one thousand dollars have been voluntarily paid or subscribed, leaving only about \$4,000 to raise.

The committee expect to get the subscriptions they take in the form of notes so that they may be turned into cash at the local bank and the entire ten-thousand dollars thereby secured by the next commencement if possible. The notes make a liberal subscription on easy terms possible. A model note filled out would read as follows: "Cedarville, Ohio, March 2, 1906. I, John Anson, hereby promise to pay the Cedarville College or the Treasurer of Cedarville College in four, two, three, four, or five annual payments the sum of five hundred dollars. The first payment will be made May 1st, 1906. All other payments on same date thereafter. Any deferred payment is to bear six percent interest after due until paid. This note is void if the \$5000 is not secured. Signed John Anson."

payment within a range of five years and all payments promptly made are to be without interest. This also enables the college to turn the notes into cash upon receipt of the note. The Exchange Bank has been designated as headquarters for the committee and Mr. Wildman has kindly consented to receive subscriptions there. Let us all faithfully work and liberally subscribe to secure the \$5,000 by June 1st, 1906.

Mr. J. W. Hawthorn has again placed in the columns of the Herald the announcement of his farm for sale. During the time it has appeared he has received letters of inquiry in answer to the advertisement from parties as far east as New York and as far west as Iowa. While the farm has not yet been sold Mr. Hawthorn is satisfied from the Herald's returns and has ordered the notice continued another month.

#### OATS FOR SALE.

I have about 400 bushels of Green Mountain oats for sale as seed oats. These oats are stiff straw and will stand up well on black land and will yield one half to one third more per acre than any oats on the market. They will test 38 to 40 pounds to the bushel.

Theo. Vogelsberg, City Hotel, Phone 81.

#### CARD OF THANKS.

Mr. and Mrs. Charles Bruce heartily extend thanks to their many friends who showed so much sympathy to them in behalf of their daughter Onelia.

#### The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of the complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Biliousness and Kidney Disease, by all druggists, at 50c a bottle.

#### Incredible Brutality.

It would have been incredible brutality if China, P. Lomborg, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Buckle's Arnica Salve, which quickly healed it and saved his eye. Good for burns and ulcers too. Only 50c at all drug stores."

#### OBITUARY.

Onelia Beatrice Bruce was born Aug. 16, 1903. Deceased Mar. 1, 1906, age 1 year 7 months 14 days, she was the infant daughter of Mr. and Mrs. Chas. A. Bruce formerly of this city. The remains were brought from their home in Indianapolis to this place Friday evening for burial. The funeral services were held at 8 o'clock Sunday evening at the home of Mr. P. C. Bruce, conducted by Rev. Joe Thompson.

"Our baby taken from our home, The voice we love is still; A chair is vacant in our home Which never can be filled. We do not wish her back again, But, Oh! we miss her so; What pain, what sorrow we endure Our friends will never know."
